

/safari:Just shipped:has(/

Child is the new buzzword

**Jen Simmons** @jensimmons · 20m

Don't say Safari is always last. Sometimes we are first.

presenting :has()

"For example, a:has(>img) selects all <a> elements that contain an <img> child."

— from [caniuse.com/css-has](https://caniuse.com/css-has)
